## DIGITAL MEDIA

Interactive Digital Media
Web Design
Games Design, 2D & 3D Animation
Visual Effects

For over 20 years, AIT has delivered progressive education for the creative, digital media and tech industries that places graduates at the top of their game. Our students consistently rank as finalists in awards festivals across Australia and around the world in recognition of the quality, creativity and technical excellence of their work. And in a world where it's not just about what you know but also who you know, we provide regular opportunities to connect them with industry. We do this through internships, industry events, mastertalks and student presentations and showcase events to industry judges. Students often land job interviews, internships or paid employment on the spot.
