ARCHITECTURE & BUILT ENVIRONMENT

Architecture
Landscape Architecture
Building Design
Sustainable Design
Urban Design
Construction Management (Property)

Our built environment courses are taught by some of the best and brightest industry professionals, and developed in close collaboration with industry partners.

This means you'll gain the skills and knowledge required to build a rewarding career in a sector that allows you to leave your mark on the world.

With an emphasis on practical experience, you'll engage in hands-on learning from day one.

In your second year, you'll get a chance to take your classroom knowledge to the workplace, and build your network of contacts and potential employers.

Graphic Design

Our design courses will teach you how to use sustainable design to lead innovation, solve global problems and create the world around you.

By developing your practical skills in our cutting-edge design facilities, not only will you learn to think big – you'll also learn the technical skills to bring your vision to life.

With an emphasis on industry experience, you'll take your classroom knowledge to the workplace from your second year, giving you the chance to make industry contacts and network with potential employers.
